Re: Retirement Contribution Rates – Guidelines for Implementing Changes
in Rate of Retirement Contributions Beginning July 1, 2023

At its November 17, 2022, meeting, the Retirement Board approved the June 30, 2022, actuarial valuation report submitted by the System's actuary. The report reflects the actuarially determined contribution rates needed to fund the System on an actuarial reserve basis for both Employer-pay (EPC) and Employee/Employer contribution plans.

Contribution rates for Regular and Police/Fire members contributing under the EPC and Employee/Employer plans are scheduled to increase. There will also be an increase in the rate for Volunteer Fire members. All rate changes are effective with the first monthly retirement reporting period beginning on or after July 1, 2023. Each employer will receive a detailed letter explaining the specific date and contribution report to begin the rates for each employee group.

The contribution rates for Regular members under the EPC plan will increase from **29.75%** to **33.50%** and the contribution rate for Regular members under the Employee/Employer plan will increase from **15.5%** to **17.5%**. The contribution rates for Police/Fire members under the EPC plan will increase from **44.00%** to **50.00%** and the contribution rate for Police/Fire members under the Employee/Employer plan will increase from **22.75%** to **25.75%**. The guidelines listed on the following pages should be used to implement the contribution rate changes and for the adjustment to your EPC compensation schedules. A certification form will be sent to each public employer to document the method in which their EPC compensation schedules are adjusted.

Contribution Rate Changes – Employee/Employer Contribution Plan

Regular Members – Increase contribution rate to 17.50%

Police/Fire Members – Increase contribution rate to 25.75%

Contribution Rate Changes – Employer-Pay Contribution (EPC) Plan

Regular Members – Increase contribution rate to 33.50%

Police/Fire Members – Increase contribution rate to 50.00%

Volunteer Fire Members – Increase contribution rate to 35.00%

EPC Compensation Schedule Adjustments

If on the effective date of the contribution rate increase:

1. Regular members are not receiving a pay increase, your current EPC compensation schedule should be reduced by **1.875%**. The member in this case is paying his portion of the rate increase by salary reduction.
2. Regular members are scheduled to receive a pay increase of **1.875%**, this will offset the increase in the contribution rate. The member in this case is paying his portion of the rate increase in lieu of an equivalent pay increase.
3. Regular members are receiving a pay increase greater than **1.875%**.
 - (a) First, raise your current EPC compensation schedule by the percentage or dollar amount of the pay increase, and then,
 - (b) Reduce the schedule by **1.875%**.

The member in this case is paying his portion of the rate increase by salary reduction.

If on the effective date of the contribution rate increase:

1. Police/Fire members are not receiving a pay increase, your current EPC compensation schedule should be reduced by **3.00 %**. The member in this case is paying his portion of the rate increase by salary reduction.
2. Police/Fire members are scheduled to receive a pay increase of **3.00 %**, this will offset the increase in the contribution rate. The member in this case is paying his portion of the rate increase in lieu of an equivalent pay increase.

3. Police/Fire members are receiving a pay increase greater than **3.00 %**.
 - (a) First, raise your current EPC compensation schedule by the percentage or dollar amount of the pay increase, and then,
 - (b) Reduce the schedule by **3.00%**.

The member in this case is paying his portion of the rate increase by salary reduction.
